2022 College Mentor Job Description

If you are passionate about making a positive impact on the future of our students, this is an opportunity you won’t want to miss. Bilingual candidates are highly encouraged to apply!

Silicon Valley Education Foundation has been partnering with school districts since 2008 to offer Elevate [Math], a yearly summer acceleration program to prepare 3rd-10th grade students to successfully complete their next level math course. Elevate [Math]’s goal is to support students nearly meeting standard in their college and career pathway, particularly those furthest from access and opportunity.

College Mentors play a critical role in preparing Elevate [Math] students for college. Working inside and outside of classroom, College Mentors serve as role models to our students, expand their horizons, and inspire and reinforce their motivation to go to college.

Responsibilities | Duties

- Support up to 4 classrooms with math instruction, college readiness activities, and STEM Career Workshop facilitation.
- Deliver 5-6 college readiness lessons for each assigned classroom.
- College mentors may provide IT support to teachers, students, and families.
- Provide administrative support (e.g. calling parents and recording student attendance)
- College mentors will reinforce norms. Examples include monitoring the chat for Zoom, or supporting group discussions in person or via zoom.
- Serve as a mentor and positive role model to students.
- Engage with students by asking questions during pair-share or small group sessions.
- College Mentors will engage with students via Zoom, Google Classroom, Nearpod and/or in person.
- Supporting teacher and program with other various assigned tasks.

Qualifications | Background

- Currently enrolled in college or a recent college graduate
- Interest in working with 3rd-10th grade students in an academic setting
- Demonstrated written, verbal, and digital communication skills
- Ability to teach SVEF-provided college readiness curriculum to a classroom of up to 25 students
- Ability to work both independently and collaboratively within an in-person or virtual classroom setting
- Proof of TB test results, COVID-19 Vaccination and fingerprinting are required prior to working with students. Costs will be reimbursed by SVEF.
- Access to reliable transportation if in person, or reliable internet connection if virtual. (Internet access must allow for use of multiple platforms simultaneously and video conferencing).
