**2021 Teacher Job Description**

Silicon Valley Education Foundation has been partnering with school districts since 2008 to offer direct-service classes. SVEF is excited to add another class to its repertoire: SVEF **Computer Science Institute**! Now stepping into our third year, we will be using a curriculum written by Microsoft and curated by our highly experienced curriculum team.

**CSI offers programs for rising 7th - 10th graders.**

### CSI Every Summer!

| Professional Development | 1. **Program Training** (24 hours)  
Must attend all pre-program training.  
Saturday **May 1st**, Saturday **May 15th**, and Saturday **May 29th**  
2. **Professional Learning Communities** (6 hours)  
Meet with your CSI coach and other teachers and TA online to share common classroom misconceptions and learn best practices. Attend the final feedback session. |

*Full compensation includes fulfillment of all PD and PLC dates, daily instruction, and required logistics.*  
**Referral Bonus**: Receive a $50 bonus if you and a referred teacher **complete** the summer program. |
Why Computer Science Institute?

- Help students prepare for high school level computer science using a unique hands-on coding curriculum
- Provide high quality instruction with project-based learning
- Professional development offers new tools and strategies for Common Core teaching.

Responsibilities | Duties

- Implement the program with fidelity and adopt instructional practices that best address the learning needs of students. This includes providing constructive feedback to students and scoring student projects according to CSI rubrics.
- Complete evaluation and data collection requirements such as administering pre & post student assessments and attitudinal surveys and a teacher post-implementation debrief.
- Integrate technology to strengthen access to online curriculum and tools.
- Track attendance and communicate students’ concerns with families and CSI staff as appropriate.
- Pick up supplies from our office in San Jose, CA if classes are in-person.

Qualifications | Background

- California Teaching Credential (preferably in math and/or science)
- District-specific fingerprinting may be required. Costs will be reimbursed by SVEF.
- Experience teaching computer science is preferred but NOT required.
